HORSE FEEDS

SCOTTISH TRAINING AWARD

Blue Grass Horse Feeds and the Riding Clubs in Scotland have joined forces to find a Scottish riding club member who shows passion, dedication to their sport and who has the will to win.

If you are a current member of the Riding Clubs in Scotland, are committed to your horse/s and their training you could be in with a chance of winning the first ever Blue Grass Training Award, which boasts training from an FEI eventing coach, feeding and clothing for horse and rider from Blue Grass.

Bluegrass Horse Feeds is a comprehensive range of equine nutrition products manufactured by A.N. Irwin & Sons in partnership with Kentucky Equine Research. Blue Grass produces a range of feeds that completely covers all aspects of equestrianism using only the best quality ingredients to ensure that your horse receives the correct balanced diet.

Cool n Condition is only one of Blue Grass' popular Irish range containing the high fat stabilized rice bran, Equi Jewel and Stamm 30, a highly concentrated source of proteins, vitamins and minerals both of which are proven by KER to have positive effects upon the horse and it's performance.

The winner of the training award will be chosen from nine finalists who will display their talents at a lecture demonstration with Becky Cullen (nee George), who was short listed for Sydney Olympics, is an FEI coach and has ridden at Badminton.

HOW TO ENTER

- Applicants should send their CV and a 500 word essay with their achievements to date, plans for the next two years and why they would like to win the Blue Grass Training Award.
- Applicants must be owner/riders and be willing to participate in advertisements and promotions for Blue Grass.
- Entries Close **30th June 2006**
- Blue Grass Scottish Training Awards, Bluegrass Horse Feeds, Stilloga Mills, Eglis, Dungannon, Co. Tyrone, BT70 1LF
